

INSTRUCTIONS FOR USE:

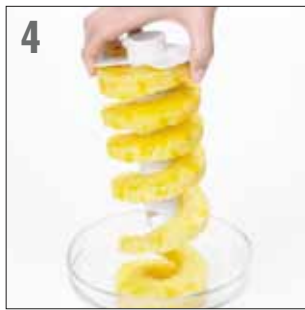

1 Cut off top of pineapple. Measure the height of pineapple with markings on shaft of Slicer.

3 Stop rotating once you reach the measurement marking determined in step 1. Pull Slicer from pineapple.

2 Hold pineapple while pushing down firmly on handle and twist clockwise 180 degrees. Without removing hand from handle, twist handle back counterclockwise. Continue twisting back and forth to core entire pineapple.

4 Pinch buttons at top to separate knob from shaft. Slide pineapple rings off shaft.
